# Frederick C. Lowrey STERLING EDITION

*Virtual Orchestra  
dramatically elevates the  
Lowrey music-making experience.*

**LOWREY**  
*Virtual Orchestra*

The foundation of Virtual Orchestra is 'Performer' technology. Performer redefines the traditional Lowrey 'Styles' method of providing players with a variety of scaleable fully-orchestrated accompaniments by greatly expanding style diversity.

Performer allows the player to easily and instantly transform their Lowrey to a different type of instrumentation, in addition to the traditional Lowrey set. For example, when a player desires a piano-oriented orchestration and voicing set, they simply select the Pianist mode. Want to play some rock and roll? Select Guitarist mode. Need a jazz band backing your song? Select Full Band mode.

Other Virtual Orchestra product innovations include 'Fake It' which easily adds a solo riff to any setup. Pedal Magic, an intuitive auto bass accompaniment feature and Quick Picks, the fast and easy way to manage and select sounds.

And of course, it would not be a Lowrey without the incredibly authentic and deeply rich tones we expect from the number one name in recreational music-making instruments - Lowrey.

*Cherry Finish*

*Oak Finish*

LOWREY

The Sterling bench opens for music storage and is height adjustable.
